

## Nelson Electricity Network Congestion for Solar Distributed Generation

February 2024

Nelson Electricity anticipates congestion in the areas fed from the following substations and will consider applications for less than 10kW on a case-by-case basis.

Substation	Streets Affected
Albert Road	Albert Road and nearby streets
Brunner Street	Eastern Tukuka street, Brunner Street and central Cambell Street
Emano Street South	Southern Emano Street and Orsman Crescent
Intermediate School	Western Tukuka Street and southern Tipahi Street
Konini Street	All Konini Street
Locking Street	Locking Street, Renwick Place and southern Mount Street
Murphy Street	Central Emano Street including Piko Street and Murphy Street
Princes Drive	Central Princes Drive, The Cliffs and Quebec Road
Rata Street	Brook Street and Westbrook Terrace near Rata Street / Sowman Street and nearby streets
Richardson Street	Northern end of Princes Drive and nearby streets
Thompson Terrace	Southern end of Murphy Street and nearby streets
Toi Toi Street	Western Toi Toi Street, Abraham Heights and nearby streets
Washington Road	Central Washington Road near Russell Street and nearby streets

If you think you live in these affected areas, please talk to your preferred solar installer who will progress your application with Nelson Electricity, and we will discuss any restrictions that may apply. Or send an enquiry to [enquiry@nel.co.nz](mailto:enquiry@nel.co.nz) and we will discuss with you.

Applications of greater than 10kW are considered individually and may have restrictions imposed regardless of where in our network they are situated.
